

ULTRA Pro Surface Sanitiser & Protectant

CLEAR PROTECT ULTRA Pro Surface Sanitiser & Protectant is a long lasting antimicrobial surface treatment that provides protection against pathogens and microorganisms, including bacteria, viruses, mould, fungi, yeast and algae.

► Features and Benefits

- ✓ Kills 99.99% of germs and mould growth
- ✓ Continuously protects for up to 30 days
- ✓ Water-based and non-hazardous
- ✓ Alcohol free
- ✓ Suitable for ULV fogging equipment

► Directions for Use

Apply to surfaces using a mister bottle or ULV fogging equipment.

Lightly mist or fog the entire surface, or spray on a microfibre cloth and apply evenly to surfaces, making sure all areas are completely covered.

Allow to dry.

Re-apply weekly, monthly or as frequently as required.

For best results, clean, sanitise and dry surfaces prior to application.

► Safety and Approvals

Refer to **SDS** for safety information.

- ✓ **MPI APPROVAL: C 101-02 (All animal product except dairy).**
Approved for use in the Dairy Industry.
Halaal Certified.

CLEAR PROTECT ULTRA Pro Surface Sanitiser & Protectant is a powerful sanitiser and commercial grade surface coating for controlling bacteria and mould growth.

ULTRA Pro is suitable for ULV fogging equipment and can be applied to a wide variety of surfaces, including common everyday surfaces or high risk critical hygiene areas.
